

Beginning the week of

JUNE 11, 2012

## Single Stream Recycling Begins in Tiverton

1. You no longer have to separate your recyclables into blue and green bins!  
It's OK to mix your recyclables together in one (1) bin or as many bins as you need to get the job done!
2. You can now recycle more plastics!  
All plastic containers up to (2) gallons, don't worry about the numbers or little triangle as long as it is a plastic container under (2) gallons recycle it!
